

Hose tube container triple for silo vehicles

Material

HD-PE black

Execution

End piece and flange are each attached to the tube container with 8 VA rivets. The flange is riveted from inside to outside. The cover is riveted with three VA hinges (for Ø 160 mm with two hinges) to the flange. The cover is locked as standard with two double-bit security rotary bolts. The locking latches grasp behind the aluminum locking bracket.

Scope of delivery

Tube complete with assembled/riveted lid (cover with flange) and end-fitting.
2 two-way key.

Accessories / Options

- Tube support
- Other locking systems (p. 96)
- Door with flange on both sides
- Intermediate lengths are possible for all models (4% surcharge)
