

Image: 3-point lock with accessories

## Type 28 toolbox

### Size (width x depth x height)

845 x 340 x 465 mm

### Material

HD-PE black

### Weight

7.00 kg

### Execution

The lid is riveted to the box with 3 hinges. The hinges and rivets are made from stainless steel (V2A) and the closing angles are made from aluminium.

The lock is protected from the elements with a cap. The hinge can be on the left or right side.

The rear of the box is specifically adapted for platform vehicles. (FIAT Ducato – p. 55)

## Mounting for type 28 on FIAT Ducato

### Material

Flat steel 60 x 5 mm, galvanized

### Execution

The crate is screwed together with just one bracket at the front on the underside of the platform. The installation parts for rear mounting on the chassis are included. (See detailed installation instructions)

When ordering this mounting, together with the type 28 toolbox, the bracket is already pre-installed on the crate (at no additional cost).
