SMALL SILO

Small silo – For practical use everywhere

Clean storage, simple removal, flexible use - the sturdy small silo from ROWEKO provides optimum protection for dry bulk goods

Whether in private households, in agriculture, sales or in trade and industry, the compact silo made of the light yet durable polymer material HD-PE is suitable for universal use and thus excellent for the fast dispensing of smaller quantities. The weather-proof, stainless tank is convincing for both indoor and outdoor applications and can be fitted with an additional rain hood for an outdoor set-up.

Details of the ROWEKO small silo

- Monitoring of the filling level through two large viewing windows
- Rapid product removal thanks to slide feed
- Variable outlet speed of up to 1 l/sec
- Large volume with light empty weight
- Simple erection and installation
- Easy filling through the funnel-shaped cover
- High material quality Made in Germany

Ideal for applications such as:

- Animal feed / concentrate – protects against mice
- Heating pellets – reduces dust development and keeps cellars tidy
- Grit/binding agent - on company premises, available immediately in hazardous areas
- Container filling - for filling bags e.g. 15 kg ornamental gravel

Design:

Dimensions	1775 x 630 x 630 mm
Weight	Total 48.90 kg
Volume	approx. 425 l
Max. load	600 kg
Material	Black polymer HD-PE, powder-coated steel

**Be convinced by the quality 'Made in Germany'.
